Experience

General Assembly - New York, NY
Web Development Immersive Oct '14 - Jan '15

• Created *Weather-Scape*, a real-time web-based weather application built on Rails with jQuery and CSS3 animations

• Built *Sequence-Pad*, a JavaScript-based interactive drum sequencer

• Developed *Search-Bar*, a logic-driven quiz application using Ruby and Yelp API

• Worked in teams following Agile management methodologies utilizing practices in Stand-ups, Scrums, and Retrospectives.

Human Rights Foundation – New York, NY '08-'14
Program Director for the Oslo Freedom Forum '10-'14
Program Officer and Technology Coordinator '10-'14
Development and Program Associate '08-'10

• Oversaw all aspects of HRF's information technologies, including: management of all domains and staff email accounts, internal network and hardware, HRF and Oslo Freedom Forum websites

• Created and implemented office-wide, technology-related best practices and protocols

• Established and fostered relationships with speakers, donors, government officials, international think tanks, and non-profit organizations for the Oslo Freedom Forum, an international human rights summit in Oslo, Norway

• Researched, identified, and secured the participation of conference speakers including: Nobel Prize Laureates, business leaders, social entrepreneurs, former heads of state, journalists, scholars, and human rights advocates

• Produced in-depth analyses of human rights violations related to ongoing programs
