## Experience

### MondoLabs - New York, NY

Lead Full-Stack Developer July '16 - present

- Lead Developer - **PayPal Permissions Portal (ongoing)**: Developing, in its entirety, a fully responsive brand usage portal-including custom CMS/admin panel.

*Technologies used*: Ruby on Rails + ERB + Mandrill API + jQuery + HTML 5 + (S)CSS3 + Bootstrap

- Lead Developer - **Brown Rudnick (ongoing)**: Developing, in its entirety, a fully responsive website for Brown Rudnick, a large, Boston-based, multi-national law firm.

*Technologies used*: WordPress + Twig templating + jQuery + HTML 5 + (S)CSS3 + FoundationPress.

- Lead Developer - **Internal Paid-Time-Off Tracker (ongoing)**: Commissioned by the Human Resources department of Mondo Staffing to develop a custom application to track employee requests for vacation.

*Technologies used*: Ruby on Rails + ERB + jQuery + HTML 5 + (S)CSS3 + Semantic UI

---

### Verbal + Visual - New York, NY

Full-Stack Developer Feb '15 - July '16

- Lead Developer - **RepsEdge**: Developed, in its entirety, a fully responsive platform for college recruiters to search for high schools, schedule visits, and keep notes on students and schools--including robust and fully custom CMS.

*Technologies used*: Ruby on Rails. Apache Solr (via SunSpot gem) for multi-faceted search. JQuery + HTML 5 + (S)CSS3 + Bootstrap on front-end.

- Lead Developer - **Al's Formal Wear**: Lead a team of four developers to build phase one of a multi-phase e-commerce/CRM system for tuxedo sales/rental company based in Houston, TX. Developed the entire back-end and much of the front-end.

*Technologies used*: Ruby on Rails with Solidus(Spree) as e-comm engine. JQuery + HTML 5 + (S)CSS3 + Bootstrap on front-end. Backbone.js for "Build your Tux" feature.

- Lead Developer - **Irving Farms Coffee Roasters**: E-Commerce site for NY-based coffee roaster and retail outlet.

*Technologies used*: Shopify Plus. JQuery + HTML 5 + SCSS + Bootstrap + Liquid templating for front-end.
